Allison,

HHS/OGC communicated the sentiments and concerns set forth in your written communications to CMS. CMS has indicated to HHS/OGC that the decision to terminate the provider agreements will not be reversed.

I believe Jeff Carruth sent a detailed email last night about what the issues are and what everyone needed help with. I also know that Liz Boyston sent a detailed letter to Tangla yesterday outlining these issues as well. Thanks

Allison,

Ms. Fudge-Bernal informed CMS after our call of your request for a conversation with Commander Lewis. We will update you when we have an answer to that request. However, given the circumstances previously discussed, Ms. Fudge-Bernal's suggestion to send a written communication which we will route to CMS remains unchanged.

Thank you,

Whitney

Tangla and Whitney:

I have to leave for a doctor's appointment in a few minutes, but just to clarify, my clients and Pure Health would like to speak with Thornell Lewis (with whom Jeff Carruth has previously spoken and whose name is on the 4/3/24 CMS letter) regarding pushing out the termination date. We are not asking that the termination be rescinded, but for the effective date to be pushed forward in order for the new operator, Pure Health, to get in the facility (that is happening later today) and to be able to assure CMS and HHSC that this facility is in substantial compliance with all regulations and that it will continue to be in compliance moving forward. I know CMS has the discretion to move the termination date farther out, and this is what we want to talk to Commander Lewis about. There has to be a way we can

get this accomplished. Thanks.
